REQUEST FOR CORRECTED FILING RECEIPT
FOR UTILITY APPLICATION

Office of Initial Patent Examination
Customer Service Center
Assistant Commissioner for Patents
P.O. Box 2327
Arlington, VA 22202

Sir:

We hereby request that the following items of information be corrected in the Filing Receipt for the subject application received in this office on July 18, 2002.

An error in priority data regarding continuing Application No. 10/058,820, filed January 28, 2002, has been noted by an "*" in the filing receipt for said application.

The error appears below:

Please revise the "Domestic Priority data as claimed by applicant" section as follows wherein

the underlined items are to be added and bracketed items are to be deleted:

THIS APPLN CLAIMS BENEFIT OF 60/264,816 01/26/2001 AND CLAIMS BENEFIT OF
60/298,963 06/18/2001 AND CLAIMS BENEFIT OF 60/325,651 09/28/2001

[and claims the benefit of 60/138,237 06/09/1999

and claims the benefit of 60/154,078 09/15/1999]

The present application does not claim the benefit of Provisional Application No. 60/138,237 or Provisional Application No. 60/154,078; rather the present application is related to the above-mentioned provisionals, as stated on Page 1 of the specification (copy enclosed). Therefore, the 60/138,237 and 60/154,078 applications should not be included in the domestic priority data.

Enclosed are copies of the Filing Receipt with changes noted in red and a copy of Page 1 of the specification.

Pursuant to instructions in the February 29, 2000 O.G., we hereby request that the errors which are identified above be corrected in the captioned application to which this request for correction is directed. It is understood that the Patent Office will issue an automatically-generated, corrected Filing Receipt in this and, if applicable, any other affected applications.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.

By

Anne J. Collins

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Expression cloning method

Preliminary Class

435

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

EXPRESSION CLONING METHOD

RELATED APPLICATIONS

This application claims the benefit of the priority dates of United States Provisional Application Serial Nos. 60/264,816 filed January 26, 2001, 60/298,963 filed
5 June 18, 2001 and 60/325,651 filed September 28, 2001, all entitled "Expression Cloning Method" by Jonathan S. Bogan and Harvey S. Lodish. The application is also related to United States Provisional Application Serial No. 60/138,237 filed June 9, 1999 entitled "Method of Measuring Plasma Membrane Targeting of GLUT4 and Expression Cloning of Proteins Involved in GLUT4 Trafficking", United States
10 Provisional Application Serial No. 60/154,078 filed September 15, 1999 entitled "Method of Measuring Plasma Membrane Targeting of GLUT4" and Utility Application Serial No. 09/591,025 filed June 9, 2000, now United States Patent No. 6,303,373, entitled "Method of Measuring Plasma Membrane Targeting of GLUT4" all by Jonathan S. Bogan and Harvey S. Lodish. The teachings of all the above-described patents and
15 patent applications are hereby incorporated by reference in their entireties.

GOVERNMENT SUPPORT

Work described herein was funded by the National Institutes of Health under NIDDK Grant K11 DK02371 and NIDDK Grant R37 DK47618. The United States government has certain rights in the invention.
